

In the local area and for the last few years I have enjoyed listening to K-LOVE radio on 88.1 FM and Air-One radio on 103.1FM. This is the type music I had been searching for a number of years and now I find myself listening at home, at work and in the car. I have also introduced others to these stations and we all are thoroughly blessed (if I may use such a word). I suffer from depression and this upbeat, positive music helps beat that back. If it works for me it is working for others as well. I am noticing more and more people with K-Love bumper stickers and we are singing songs we have heard on these stations at church. I teach in Sunday School and my 6th graders are very familiar with the songs if they are mentioned. I write this to ask that we not lose our positive upbeat hourly joy to an unknown LPFM station. I know I am not alone in say-ing that these LPFM are a scary thought; similar to wardrobe malfunctions on a local daily level. The thought of losing our translator service to such an unknown gives me great concern. I know that the FCC is currently cracking down on unfit programming, CBS and FOX, for example. I simply ask that you don't make these LPFM stations available for any potty-mouthed person that would like to become famous, such as Howard Stern is now. I shudder to think that our children could stumble upon that simply by accident. Things are bad enough on TV that I watch very, very little of that. I would not like to have to give up my radio station as well. Thank you and God keep us safe and free.
